

ELEGANT bathrooms

QUALITY, ELEGANCE AND VALUE

BEAUTIFUL BATHROOMS

WHY CHOOSE Elegant Bathrooms?

We prioritise quality above everything else, delivering precision-made products across every collection. From full bathroom suites to the finer details, each piece is created to the highest standards. Plus, every corner of your bathroom is catered for, so you can buy everything you need right here.

We pride ourselves on having an in-depth knowledge of every item we offer, so you're certain to receive excellent service from the start of your bathroom creating journey to the moment it's completed.

INNOVATIVE DESIGN

Boasting the ultimate collection for any bathroom, our product ranges are made to last. We use robust materials throughout, meaning that many of our products are designed and manufactured to surpass most of the world's quality standards. As well as using durable, dependable materials, we also provide a range of styles and designs. Whether you want traditional handmade furniture, sleek brassware, or a modern, glistening stainless steel finish, there is something to suit a variety of tastes. Whichever design you choose, you'll find that every fitting is made with passion and built to bring instant style to any 21st century home.

A NAME YOU CAN TRUST

We know that our customers expect different things of their bathrooms. Some require space saving fittings while others want to update the space to fit with the rest of their home. Our product ranges meet a range of needs and are covered by a lifetime guarantee, so you can enjoy added peace of mind when you choose us.

Whatever you're looking for, you'll find it here. This eclectic selection of beautiful bathrooms is guaranteed to make your next bathing experience one to remember.

All of our products are covered by a lifetime guarantee.

See page 370 for details.

It's the small things that make the difference to bathroom design from stylish soap dishes to towel bars. Explore our collection to complete your dream bathroom

NEW FROM ELEGANT BATHROOMS

Look out for the 'NEW' references in this brochure to see our latest collections. Fluting is one of our big trends which has been reinvented in bathroom spaces for a contemporary twist and is the epitom of luxury design.

Chevron features a tactile fluted design, the luxurious Labyrinth fluted freestanding and back-to-wall baths. Also new is our wetroom fluted panel which offers privacy while allowing the light to shine through.

COLOUR

BY ELEGANT BATHROOMS

Colour That's as Unique as You Are

Inject colour into your bathroom with Colour for all your fixtures and fittings to create a beautiful bathroom space with stylish finishing touches.

A careful choice of colour co-ordinated accessories can really enhance the overall look and style of your bathroom. Add personality to your space with Colour.

We offer a carefully selected choice of five on-trend colours including brushed bronze, brushed brass, gunmetal, matte black and chrome.

A Co-ordinated Approach for Your Entire Bathroom

The importance of colour co-ordinated bathroom accessories can't be overstated enough to the overall look and feel of a bathroom – they complete it.

With Colour, you will find high quality, colour matched finishes across our entire collections so you can get the complete co-ordinated look. We offer all our colours on everything including taps, mirrors, shower enclosures, showers, flush plates, bottle traps, basin wastes, overflow covers, accessories and much more.

We offer so many colour options to choose from across our entire product range, there's no limit to how much you can personalise your interior.

Explore our extensive collection of products with these latest colours to create the perfect finishing touches to your dream bathroom.

One Brand.*

CHROME

A classic and understated finish, chrome remains our most popular choice for bathrooms. Its neutral colour complements a wide range of colour schemes, making it an ideal choice for bathroom makeovers.

SANITARYWARE

We offer an extensive range of sanitaryware designs suitable for any bathroom space regardless of its design and configuration covering modern, contemporary, and timeless styles.

Our sanitaryware is highly durable and easy to clean and maintain. Look out for our WCs which feature rimless technology with no ledges to reduce bacteria and limescale growth. Our upgraded contactless flush sensor offers a hygienic solution with a simple wave of a hand. Look out for our soft close toilet seats which feature a quick release mechanism for easy cleaning.

Choose from our selection of pedestal basins and wall mounted semi-pedestal basins to create the illusion of extra space. Our semi-recessed basins co-ordinate perfectly with a run of Scudo bathroom furniture and our sophisticated countertop bowls create a design statement on our collection of modular furniture.

RIMLESS

We offer a range of rimless WCs with no ledges to reduce bacteria and limescale growth. With the unique flush system, water is projected around the pan, giving an even flow of water over the whole surface of the bowl.

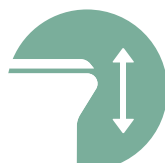

BASIN OVERFLOW COVERS

Add a glamorous finishing touch to your bathroom with our basin overflow colour covers which also co-ordinate with our mirrors, taps, and accessories. Choose from matte black, brushed brass, white, gunmetal and brushed bronze overflow cover options to get the complete look. (Supplied with chrome as standard).

SOFT CLOSE MECHANISM

Our soft close toilet seats close in a slow, quiet, and controlled way to reduce the impact and extend the life of the seat.

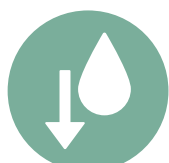

COMFORT HEIGHT

Scudo comfort height WCs are slightly higher than a standard pan to comfortably accommodate taller, less able, or older users.

EASY CLEANING

Push button quick release toilet seats for easy cleaning.

REDUCED WATER CONSUMPTION

Dual flush cisterns reduce water consumption for the environmentally conscious and save on energy bills with 3 and 6 litre flush options.

SHORT PROJECTION

These reduced depth WCs take up less floor space and are perfect for small bathrooms and en-suites.

TAILORED FINISHES

Obtain a perfectly styled bathroom with these extra additions to selected WCs. Black and white push buttons and toilet hinge cover caps are available.

CONTACTLESS SENSOR FLUSH

contactless flush sensor is a great upgrade to push button alternatives, and is suitable for both existing and new cisterns. The infra-red sensor provides a hygienic way to operate your flush that is quick and easy to install.

The flushing valve and sensor is operated by 4 x AA batteries, with a life cycle of thousands of flushes. There is also a manual override when the batteries deplete.

Create a high-end feature in your bathroom with minimal investment, a good way to upgrade your bathroom quickly and effortlessly.

- > Dual flush
- > No electrical installation
- > Uses 4 AA batteries that can provide thousands of flushes.
- > Manual back-up, button can still be used as a push button if battery runs out
- > Adjustable Dual Flush
- > Adjusted between 2 and 6 litres.
- > RoHS Certified
- > IPX4 rated
- > Sensor suitable for top mounting only, not suitable for forward facing placement

Contactless Flush Sensor
£101.00

FLUSH-SENSOR

HYGIENIC SENSOR FLUSH

Dual flush

Wave hand over sensor for half flush

Hold hand over sensor for a full flush

EASY TO FIT / RETRO FIT

The contactless flush sensor valve is a great upgrade for most WCs. Fitting cisterns with a height between 260mm-320mm and a flush button hole of Ø40mm it will complement most cisterns on the market.

As a naturally occurring material, marble exhibits inherent variations in colour, pattern, texture, and surface features, resulting in no two piece being exactly the same, despite being sourced from the same quarry. These unique characteristics develop over millions of years through geological processes and should be taken into account when viewing product images as they serve as a representative guide only.

RANGE FEATURES

Fluting is a classic look in interior design and is a fantastic way to add texture to a bathroom. Alfie is inspired by retro design with a modern twist and is a show-stopping must-have.

Alfie is supplied with a slab door front as standard with the option of upgrading to a fluted door. With an elegant handle-free design, Alfie features a high-quality push-to-open mechanism and matching slab worktops.

Alfie is available in our best-selling 600mm unit size and the open storage unit can be easily added to create additional stylish storage. Open storage is a growing bathroom trend. Rather than hiding your accessories behind cabinetry, show them off in style in the designer open shelving which provides immediate access to your bathroom necessities.

Choose from three stunning finishes. The Sonoma Oak natural woodgrain effect adds warmth and a beautiful texture to a bathroom while Reed Green brings a calming vibe. Alternatively, make a statement with Matte Black which contrasts super well with our white sanitaryware.

Our round mirrors work particularly well with the Alfie modular unit and our co-ordinating brassware completes the look. The countertop ceramic basin adds the perfect finishing touch.

RANGE FEATURES

For something truly special, the Ambience collection combines high spec styling with contemporary features. Comprising a sleek basin, tall boy and matching mirror, each piece in this range is designed to enhance your bathroom and add an element of sophistication.

Ambience is available in a choice of four finishes. Rustic Oak, which offers classic, homely wood tones, and Grey Oak, a chic, neutral shade. Also available in a classic Matte White and Matte Grey so you can be assured there is a colour to complement your bathroom.

For practicality with a modern twist, there are sensor-operated, battery-powered LED lights lining the drawer beneath the basin, enhancing the usability of this unit and offering a neat lighting solution.

The basin comes in a choice of white or grey poly-marble and a chrome and black overflow are included as standard, so it's possible to try both options out to see which fits the space best.

In addition, both the basin and tall boy are wall-hung, freeing up valuable floor space and making them ideal for compact bathrooms. A frame shelf is an optional extra that can be added to the tall boy and basin to provide further storage and shelving.

The units are either 600mm or 800mm, making this collection suited to an array of bathroom sizes.

RANGE FEATURES

Make a statement with our new Aubrey modular collection to give your bathroom a modern, minimalist look. The stunning integral handle design is the focal point to create a premium high-end look.

Aubrey offers three different trend finishes: Davos Oak, Dust Grey, and Reed Green. Davos Oak is perfect in bathroom design to create a warm and calming effect of wood. Dust Grey is a mid-grey and Reed Green brings a calming vibe to create a modern looking bathroom.

The designer angular handle is available in chrome, black and brushed brass. This co-ordinates perfectly with our mirrors and brassware colour options to complete the look. **Please specify your handle choice when ordering.**

Aubrey is featured here with the Stance ceramic counter top basin and thin on-trend Carrera Marble worktop for a luxurious finish.

RANGE FEATURES

The Bella range of furniture spans both floor standing and wall hung options.

Choose between a range of sizes, from a more compact 600 width basin up to a luxurious 1200 double basin size.

Basins are high quality stonecast to ensure the sweeping lines are crisp and clean, topped with an anti-bacterial high gloss finish. If your preference is for a ceramic basin, our Ella range might be just what you're looking for. (see page 92)

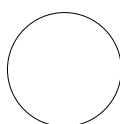

All of the wall mounted furniture features adjustable hangers to ensure your furniture can be installed easily and can withstand the daily use in a busy family bathroom.

All Bella units feature a metal drawer box mechanism, meaning the action of the sliding drawer remains smooth and stable throughout its life in your home. The mechanism is soft closing with a smooth and controlled closure.

The matching tall boy unit offers huge storage space for toiletries, and is perfect for large families.

Bella Matte Grey furniture is made in Britain. High Gloss White is also available.

CHEVRON

RANGE FEATURES

The Chevron range is a subtle nod to the Art Deco design movement, incorporating sleek lines that create a bold look for your bathroom.

Chevron is a stylish collection that comes in a choice of two colours. The blue is a beautifully sophisticated tone that adds a bold splash, while the powdery pink is an elegant shade. Both shades have been created to complement any type of bathroom.

In addition to delivering a chic aesthetic to your bathroom, Chevron is also practical. The wall-hung basin frees up valuable floor space, making it an ideal choice for bathrooms that are compact. A frame shelf is an optional extra that can be added to the basin to provide shelving.

The units are available in a choice of 600mm or 800mm, making this collection suited to a range of bathroom sizes.

RANGE FEATURES

Bring a touch of classic design to your bathroom with Classica. A timeless range designed to suit any bathroom, the Classica collection is the perfect balance between modern and traditional, combining refined lines with a classic look.

Classica is flexible and can be configured to suit most bathrooms. Multiple elements from the range work neatly alongside each other to give the appearance of a fitted bathroom. Tailor the modular design layout to suit your space.

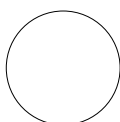

Alternatively, pick out individual pieces to work as standalone vanity and WC units.

This beautiful classical bathroom set would look stunning in any bathroom design with a choice of three timeless satin finish colours and two stunning basin options to suit your style.

See page 176-179 for our wide range of handles

Page 345

RANGE FEATURES

The Ella collection brings together neat design and stylish features to form bathroom furniture that suits a whole range of bathrooms.

Take your pick from floor standing and wall hung options to build a bathroom that works for you. Should you want to free up floor space, wall-hung units are the ideal choice, while floor standing pieces fill the room and take centre stage.

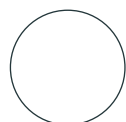

As well as being able to choose where your furniture is placed, you can also select different sizes. Basins are available in a compact 600mm-wide design up to a luxurious 800mm. All of the basins in this collection are made from high quality ceramic, ensuring durability and longevity.

You can complete the look with a tall boy unit. These offer ample storage space for toiletries and are perfect for large families.

All Ella units feature a metal drawer box mechanism, meaning the action of the sliding drawer remains smooth and controlled with every use.

Whichever piece you choose from the Ella collection, you're sure to add something special to your bathroom when you bring this range into your home.

Page 345

RANGE FEATURES

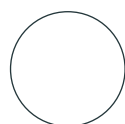

The Empire range of furniture has been created with the minimalist in mind. This collection of bathroom units swaps out traditional handles for hidden recesses, forming a sleek finish. In addition, each piece in the range features soft-close doors, adding to the smooth aesthetic.

Empire is also a flexible collection, encompassing units in a selection of sizes and combinations designed to slot neatly into any bathroom.

Take your pick from standalone pieces, or opt for a combined vanity and WC unit that can be seamlessly brought together with a one-piece polymarble top.

This Europe-made range comes in a choice of four colours: white, blue, green, or anthracite - a cool grey shade that adds a neutral tone to the space. For a smart, minimalist bathroom, Empire is the perfect choice.

RANGE FEATURES

With its modern lines, the Lili range of furniture is a flexible collection encompassing a multitude of sizes and combinations that will look at home in any bathroom. Lili is an ideal solution for all size rooms with a simple uncomplicated design.

If you want a versatile design, look no further. Lili is available in four different styles to suit your needs including 2 drawer and 2 door options, perfect for all bathroom sizes.

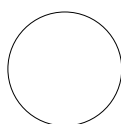

Choose between standalone Lili units, or a combined vanity and WC unit that can be seamlessly brought together with a one-piece poly marble top.

Lili doors and drawers are fitted with soft close mechanisms to give controlled and quiet closure and this collection is available in a choice of two modern finishes. Lili is available in a high-gloss white finish which reflects light perfectly and an in-style Matte Grey which resists fingerprints.

RANGE FEATURES

The Rossini range is a modern freestanding furniture collection. Not only is it pleasing on the eye, but a few important details ensure it's also a pleasure to live with. The Rossini's doors are a luxurious 25mm thick, to give them a high quality feel, which is complemented with soft closing doors.

The Rossini range comes in a 500mm, 600mm, and 800mm wide vanity unit with a ceramic basin and a matching WC unit. All three colours are made in a sleek desirable lacquer finish.

ACQUA SHIELD
GLASS CLEANING
TECHNOLOGY

HIGH
PERFORMANCE

Discover a premium selection of enclosures and shower trays, which delivers a truly exceptional showering solution.

This diverse and versatile collection offers the ultimate in quality, precision and craftsmanship and encompasses something for every style and shape bathroom.

We only use the finest quality materials to guarantee unsurpassed quality, ensuring all our products reach exceptional levels of style and performance.

All our enclosures and shower trays are designed for high performance and are built to last with a lifetime guarantee.

STEP 1: POSITION

The first decision to make is where to position your shower enclosure in the perfect space to work with your design. Showering positions are usually in a recess, corner or against a wall.

Recessed Enclosure

Single door is all that is required for a recessed enclosure.

Corner Enclosure

Positioned in a corner and a flexible option. Usually a door and side panel design.

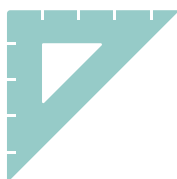

Three-Sided Enclosure

Single wall space which accommodates a single door and two side panels.

STEP 2: MEASURE

Measuring for the shower enclosure is the next step to creating your new bathroom space. The area that you have available will determine the type of shower space you can accommodate as well as any tolerances or alterations needed.

It's important that you plan ahead and take exact measurements in your bathroom. Then simply choose from our comprehensive range of sizes to create your dream bathroom.

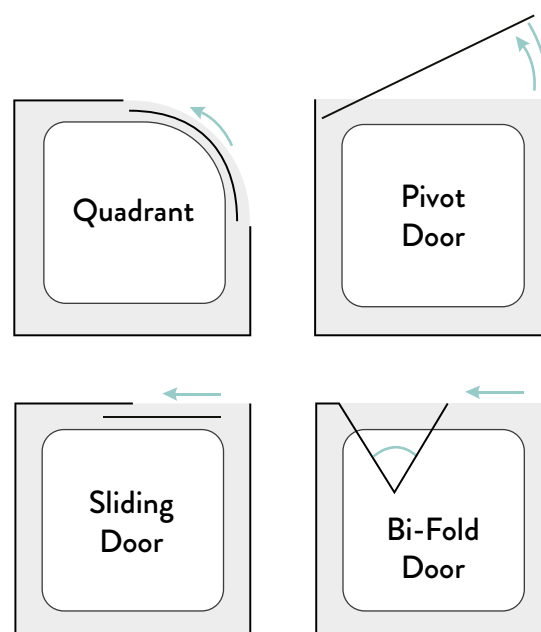

700+
mm

1000+
mm

1200
mm

STEP 3: STYLE

Once you have decided your bathroom plan and where to locate your enclosure, you can choose your style. Where you want to place your shower may dictate the type of shower enclosures you can choose from. Whatever your design, we have something that will work with your space to create a stylish look.

STEP 4: FINISH

The most exciting part of bathroom design is choosing your perfect finish. Our chrome finish is as popular as ever and we have seen the emergence of colour which can give a space a different dimension.

	Matte Black	This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.
	Chrome	Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.
	Brushed Brass	Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom..

STEP 5: GLASS

Acqua Shield Glass Cleaning Technology

As a standard sign of performance and quality, Acqua Shield is expertly applied to all shower enclosures in this range.

By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

GLASS OPTIONS

Scudo offers a choice of toughened safety glass options with easy clean technology. Choose from 6mm or 8mm thick glass.

STEP 6: SHOWER TRAY

Complete your bathroom design with a low profile Shires shower tray which complements our range of enclosures.

This elegant, modern design is extremely durable and is available in a wide range of sizes to suit every bathroom.

Please see **Page 264** for our full shower tray collection

RANGE FEATURES

CUSHIONED COLOUR MATCHED MAGNETIC DOOR SEALS

magnetic door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their stylish finish is matched only by their superior practicality.

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design.

QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism. This allows the door to swing away from the frame for direct access to all areas of the shower - ideal for simpler and thorough cleaning.

PROFILE COVER CAPS

specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

DESIGNED IN THE UK FOR UK HOUSEHOLDS

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

RANGE FEATURES

CUSHIONED COLOUR MATCHED MAGNETIC DOOR SEALS

magnetic door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their stylish finish is matched only by their superior practicality.

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design.

QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism. This allows the door to swing away from the frame for direct access to all areas of the shower - ideal for simpler and thorough cleaning.

PROFILE COVER CAPS

specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

DESIGNED IN THE UK FOR UK HOUSEHOLDS

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

RANGE FEATURES

CUSHIONED COLOUR MATCHED MAGNETIC DOOR SEALS

magnetic door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their stylish finish is matched only by their superior practicality.

SOFT OPEN BUFFERS

Smooth and impact-free door openings are a staple of this high quality sliding door range. Utilising the pressure absorbing functionality of a singular discreet piston, this modern innovation ensures that shower doors open with a gentle and controlled feel.

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design. Featured across this entire range.

QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism. This allows the door to swing away from the frame for direct access to all areas of the shower - ideal for simpler and thorough cleaning.

PROFILE COVER CAPS

specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

WET ROOM

STEP BY STEP

CREATE YOUR PERFECT WET ROOM

Wet rooms are becoming more and more desirable, and they're a great way to add value to your home. A wet room is an entirely waterproofed room and is a popular choice for modern bathrooms.

LIFETIME
GUARANTEE

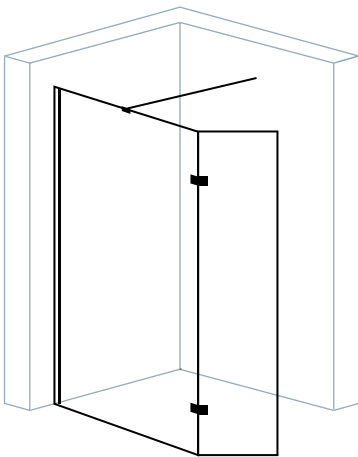

ACQUA SHIELD
GLASS CLEANING
TECHNOLOGY

HIGH
PERFORMANCE

STEP 1: POSITION

This quality range of wet rooms has been designed with flexibility in mind and are typically installed in a corner of a bathroom.

Wetroom panel positioned in a corner with a deflector panel.

STEP 2: MEASURE

Create a minimalist bathroom space with our shower glass panels for wet rooms with options for all bathroom sizes and configurations. Simply measure your space and choose from our glass panels ranging from 600mm to 1200mm.

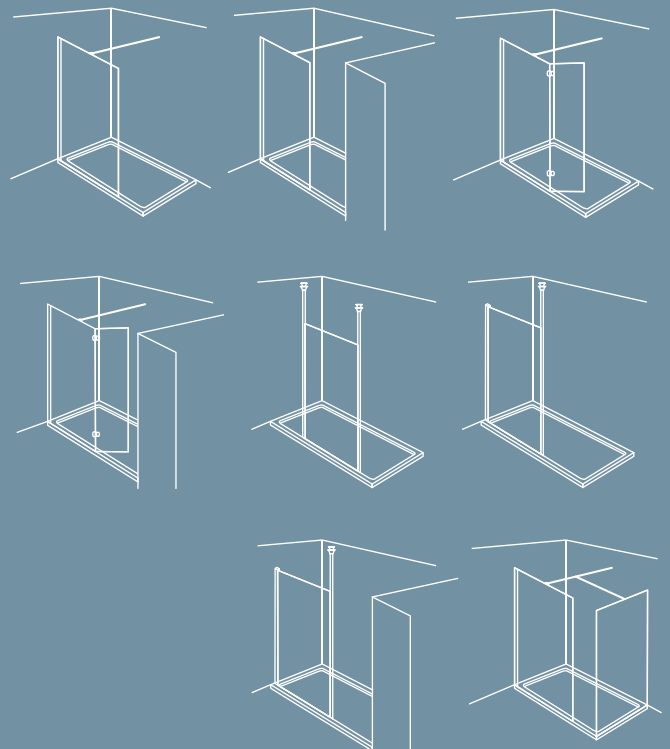

600+
mm

900+
mm

1200
mm

STEP 3: STYLE

The range of wet room panels and accessories can be combined to create hundreds of different configurations, ensuring the perfect product for your bathroom. When it comes to the framing of your glass panel, you can opt for a modern frameless design or a more sturdy, robust metal profile.

STEP 4: FINISH

The most exciting part of bathroom design is choosing your perfect finish. Our chrome finish is as popular as ever and we have seen the emergence of colour which can give a space a different dimension.

-  **Matte Black** This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.
-  **Chrome** Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.

-  **Brushed Brass** Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom.
-  **Gun Metal** New signature finish for use in modern and contemporary designs to add elegance to your bathroom.
-  **Brushed Bronze** Give your bathroom the sophisticated appearance it deserves with our striking new brushed bronze finish.

STEP 5: GLASS OPTIONS

All our glass panels are made from toughened safety glass. All wet room glass panels are 1950mm or 2000mm in height for extra practicality.

Our panels are also treated with **Acqua Shield glass cleaning technology** which resists the build-up of limescale and grime on the glass surface making it easier to clean. On-trend fluted glass is now available as an option.

STEP 6: SHOWER TRAY

options with and without a shower tray. As a wet room design is an entirely weatherproofed room, there is no need for a shower tray. A walk-in shower design still uses a tray, like a conventional shower, but offers more space.

Please see **Page 264** for our full shower tray collection

S8 WETROOMS

GRID WETROOM PANELS

- > 1950mm in height
- > 8mm thick toughened safety glass
- > Acqua Shield glass treatment as standard

Eco-Stone: Sustainable Shower Trays for a Greener Future

Shires Eco-Stone shower trays combine exceptional quality with a conscious approach to protecting our environment. Join us in creating a greener future, one shower at a time.

Gel Coat Finish

The Eco-Stone gel coat technology is an environmentally friendly alternative to traditional unrecyclable methods using acrylic skins with stone resin filler. This can potentially save up to 700,000 sheets of acrylic annually which equates to an astounding 1.4 million kg's of plastic from polluting our environment.

Environmentally Conscious Filler

Eco-Stone shower trays feature limestone powder as the primary filler. To further enhance sustainability, these trays incorporate up to 30% recycled content, utilizing waste fragments from glass production that would have otherwise been destined for landfills. This eco-friendly approach ensures a reduced carbon footprint while maintaining the highest quality standards.

Say Goodbye to Delamination

Unlike acrylic shower trays prone to delamination, our gel coat finish provides a reliable solution. Delamination, where the acrylic skin separates from the stone filler, causing bubbles and rendering the tray unusable, is a problem you won't encounter with our superior gel coat technology.

SHIRES SHOWER TRAYS

Introducing the luxurious Shires Bathrooms Trays, meticulously crafted from a remarkable blend of mineral compounds and resin.

These exquisite trays showcase a 30mm thickness, offering unrivaled durability. Their gel coat exterior layer have been expertly thermally fused, ensuring maximum strength.

RIGID RISER SHOWERS

WRAS Approved Products

Where this logo appears you can be assured products are WRAS approved. WRAS is the most recognised industry standard against waste, misuse, undue consumption or contamination. WRAS certification requires significant testing by independent labs and water suppliers making the product accepted by every UK water supplier.

Adjustable height after fitting

All our Rigid Riser showers are adjustable after fitting, with the exception of the Traditional Shower. This feature allows you to adjust the fixed shower head up and down to suit different users, from children to adults.

High Quality Metal Shower Heads

Our showers all benefit from high quality metal fixed shower heads instead of a cheaper plastic alternative

Quality Thermostatic Components

All of our thermostatic showers are built with quality cartridges from trusted manufacturers using European technology.

COMPONENT SHOWERS YOUR WAY

CREATE YOUR PERFECT SHOWER

Component showers offer a customisable approach to designing your own unique shower experience, allowing you to mix and match various shower components to suit your preferences and needs. By selecting individual elements

such as shower heads, valves, slide rails, handsets, and other accessories, you have the freedom to create a shower system tailored specifically to your desired functionality, style, and comfort.

WALL OR CEILING ARM

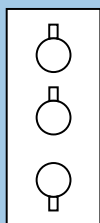

The wall arm offers stability and ease of installation, while the ceiling arm provides a luxurious overhead rainfall shower experience.

SHOWER HEAD

Our shower heads come in various shapes and sizes to suit your bathroom's aesthetic.

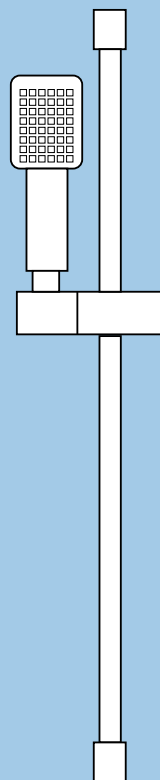

YOUR POTENTIAL COMPONENTS

CONCEALED OR EXPOSED VALVE

Concealed valves provide a clean and minimalist look by hiding the plumbing, while exposed valves offer easy access and a traditional aesthetic.

SLIDE RAIL OR HANDSET

The slide rail provides adjustable height and hands-free convenience, while the handset offers versatile, targeted spray and easy manoeuvrability.

FINISHES

The most exciting part of bathroom design is choosing your perfect finish. Our chrome finish is as popular as ever and we have seen the emergence of colour which can give a space a different dimension.

Matte Black

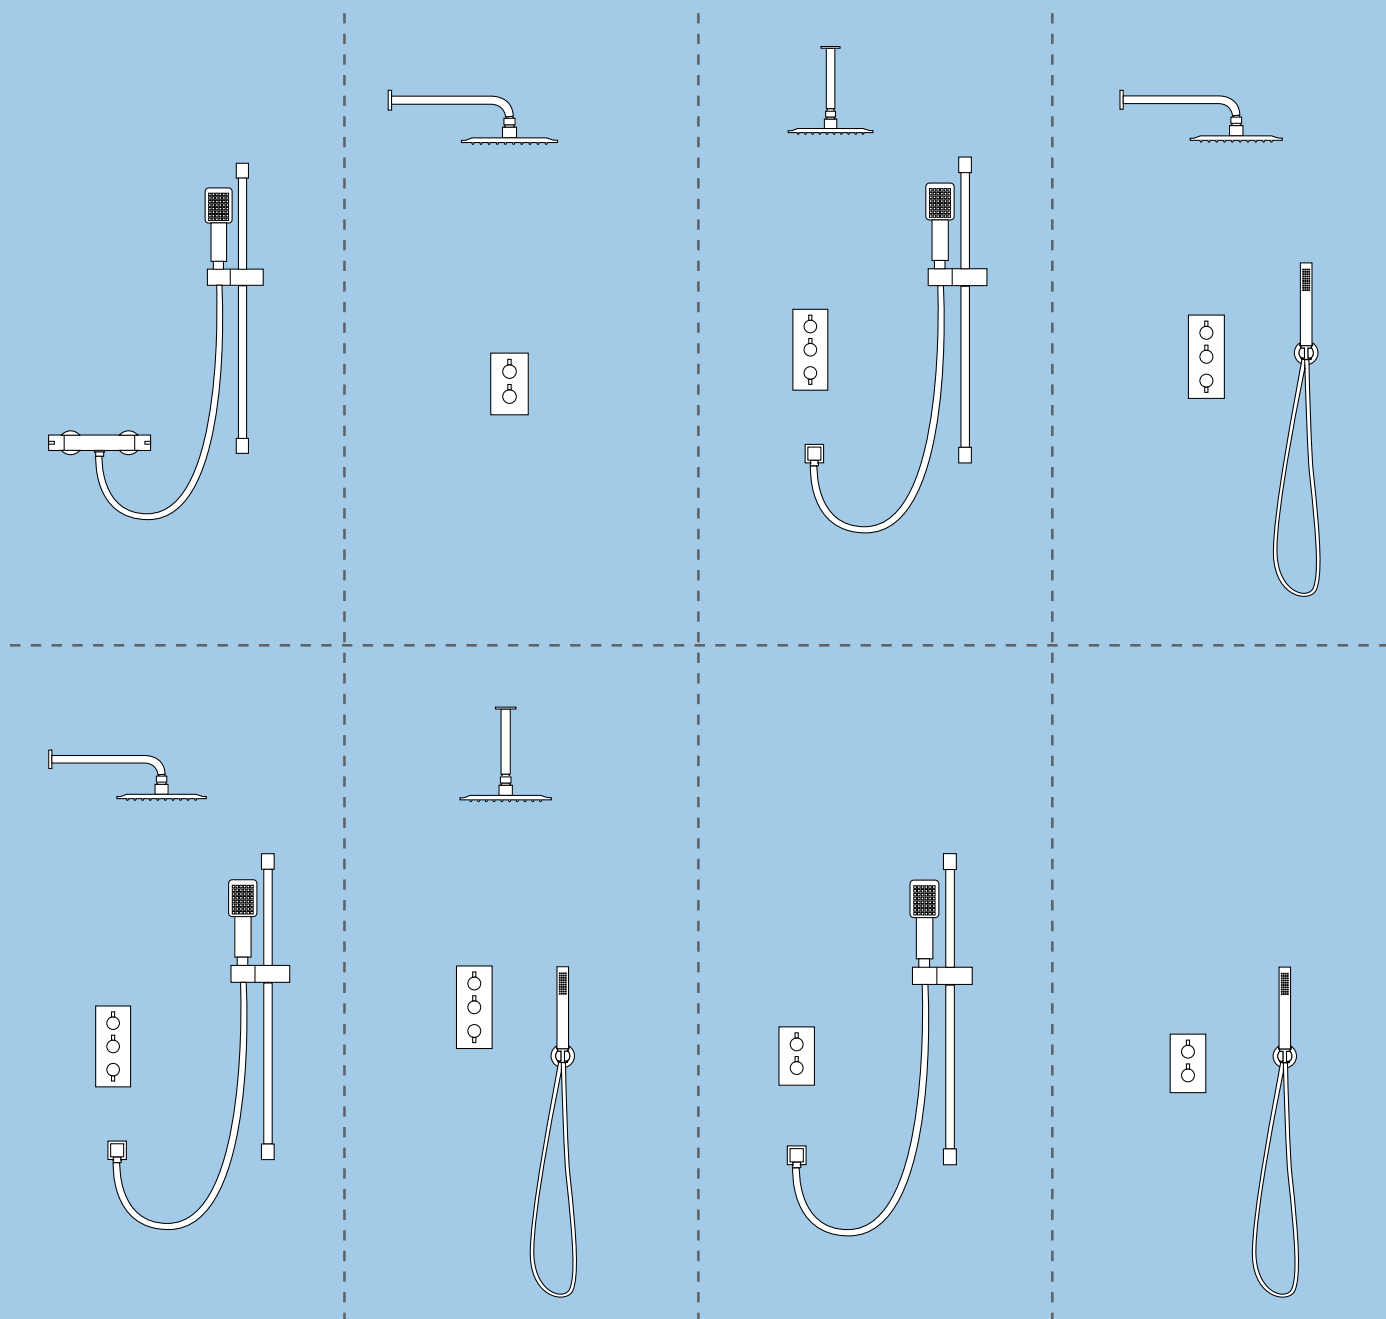

This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.

Chrome

Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.

Why Choose a Twin Handle, 1 outlet Concealed Shower?

- > Easy to operate - the top control turns the water on and off and the bottom control adjusts the temperature.
- > A simple shower solution - the twin shower will operate one shower accessory, choose a fixed head or a slide rail kit.
- > Protection against accidental scalding.

FEATURES

- > Manufactured from solid brass.
- > Suitable for water systems between 0.2 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > 10 year guarantee.

Why Choose a Twin Handle, 2 Outlet Concealed Shower with Diverter?

- > Easy to operate - the top control is the diverter to switch between your shower accessories and the bottom control adjusts the temperature.
- > A flexible shower solution - the twin with diverter shower allows you to have two shower accessories, and diverts between them according to your preference.
- > Protection against accidental scalding.

FEATURES

- > Manufactured from solid brass.
- > Suitable for water systems between 0.2 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > 10 year guarantee.

Why Choose a Triple Handle, 2 Outlet Concealed Shower?

- > Easy to operate - the top control operates one shower accessory, the centre control adjusts the temperature and the bottom control operates the other shower accessory.
- > A flexible shower solution - the triple shower will operate two shower accessories, you can choose to run them separately or run two at the same time.
- > Protection against accidental scalding.

FEATURES

- > Manufactured from solid brass.
- > Suitable for water systems between 0.2 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > 10 year guarantee.

Why Choose a Triple Handle, 3 Outlet Concealed Shower with Diverter?

- > Easy to operate - the top control diverts between two shower accessories, the centre control adjusts the temperature and the bottom control operates a shower accessory - enabling you to have three shower options.
- > A flexible shower solution - the triple with diverter shower will operate three shower accessories, you can choose to run them separately or run two at the same time.
- > Protection against accidental scalding.

FEATURES

- > Manufactured from solid brass.
- > Suitable for water systems between 0.2 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > 10 year guarantee.

Choosing the perfect mirror can really put the finishing touches to a bathroom design and are an integral part of any space. Mirrors and mirrored cabinets in bathrooms are essential. They can create an illusion of more space, add light and style and create more storage space. In smaller bathrooms, a mirrored wall cabinet is an excellent option to create additional storage space.

RANGE FEATURES

Look out for these key features when choosing your bathroom mirror or cabinet:

LANDSCAPE & PORTRAIT MOUNTING

Add a personal touch to your bathroom by hanging a mirror that complements your decor and style. These mirrors can be hung landscape or portrait to enhance the ambiance of your space and create a sense of depth.

EASY TOUCH COLOUR CHANGE

These mirrors are built using an ultra-modern no-touch on/off switch. The light can be turned on and off by gently touching the sensor on the glass. The colour of the light can be changed from warm white to bright white by touching the sensor and waiting until the desired colour is reached. The mirror will then remember your preferred colour setting.

IP44 RATED CLASS 1 RATED

A selection of mirrors are IP44, Class 1 Rated and suitable for installation in zones 2 or 3 of a bath/shower room.

SAFETY GLASS

These 5mm thick mirrors feature sealed edges and a safety film backing for added protection, making it a safe and durable choice for any bathroom.

HEATED DEMISTER PAD

All of our mirrors come with heated demister pads, enabling you to use the mirrors in steamy bathrooms. The pads heat the mirror to above room temperature, which stops mist appearing on the mirror.

INFRARED ON/OFF SWITCH

Some of our mirrors and cabinets are built using no-touch on/off switches. By simply moving your hand under the sensor the mirror can be turned on and off without the need for a pull switch or leaving fingerprints on the mirrors.

DOUBLE-SIDED MIRRORS

Some of our cabinets are available with mirrors on the inside as well as outside.

BLUETOOTH™

This innovative feature allows any Bluetooth™-enabled device to stream music or live radio to the mirror.

SHAVER SOCKET

Built-in charging socket suitable for toothbrushes, shavers and trimmers.

Zone 1 refers to the area above the shower up to a height of 2.25m and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

Zone 2 covers an area of 0.6m wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

Outside Zone has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom light is rated IP65, then the 6 means its 'Protected against dust' and the 5 means its 'Protected against water jets' from a shower, tap or cleaning processes from any direction.

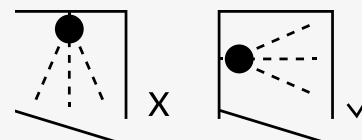

First numeral - protection against ingress of foreign bodies, e.g. tools, dust, fingers, etc.

- 0 No protection
- 1 Protected against solid objects with a diameter of 50mm and over (e.g. accidental insertion of hands)
- 2 Protected against solid objects over 12mm (e.g. jointed fingers)
- 3 Protected against solid objects over 2.5mm (tools)
- 4 Protected against solid objects over 1mm (small wires)
- 5 Protected against - limited ingress permitted (no harmful deposit)
- 6 Totally protected against dust

Second numeral - protection against ingress of liquids.

- 0 No protection
- 1 Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect
- 2 Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.
- 3 Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.
- 4 Protection against splashing. Liquid splashed from any direction shall have no harmful effect.
- 5 Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.
- 6 Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.
- 7 Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.
- 8 Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.
